WAR BETWEEN THE STATES LIKELY TO HEAT UP...

There has been a runnin' battle goin' on between the Northern & Eastern sections of the country for a long time now as other states blessed with coal, oil and natural gas have tried to fight off attempts of those states who have none of these blessings in abundance, and efforts of these have not to keep prices low and to allocate the available supplies in their favor through Govt. actions.

This affair has become quite heated from time to time and is still creatin' a lot of hard feelings between the various states and their parts of the country. However, this battle will amount to a very small wave on a very small pond compared to the probability of disagreements stemming from President Reagan's New Federalism announced in his State of the Union (CONT. Fed Cattle Higher, Hogs Uneven In Market Trading

St. Paul, Feb. 1 (USDA) - Midwest livestock summary. Fed cattle in the Midwest on Monday sold higher in view of a higher wholesale dressed beef trade and a reduced federal inspected slaughter rate. Barrows and gilts sold generally higher as the federal inspected slaughter rate dipped and a snow storm interrupted marketings in the Eastern cornbelt area.

Slaughter steers and heifers sold steady to 1.00¢ higher, with yearlings 1.00-2.00¢ higher. Choice and prime 2-4 1100-1350 lb slaughter steers sold from 68.00-68.00; choice 2-4 1050-1300 lbs 60.50-64.00; mixed good and choice 2-3 1000-1200 lbs 59.50-61.50. Choice 2-4 900-1100 lb slaughter heifers received from 65.50-62.00; mixed good and choice 2-3 850-1100 lbs 58.50-61.00.

Slaughter cows sold steady to 2.00¢ lower, except Fawnia steady to 1.00¢ higher. Upper and commercial 2-4 sold from 34.00-37.00, few 38.00-39.00. Cattle 1-8 81.00-87.00.

IRS Interest Rates Rise to 20%

Dallas - Whether you plan to file your tax return early or wait until the April 15th deadline nears, it's a good idea to begin computing your federal income tax now to be sure you can pay any tax due by the deadline. This is especially good planning in light of the increase in the annual interest rate IRS charges on overdue tax bills to 20%.

According to R.C. Voakuhl, Director of the Dallas District of the Internal Revenue Service, the annual interest rate charged on delinquent tax accounts and paid on overpayments rises from 12% to 20% effective February 1, 1982. In addition, if tax due on this year's 1040 is not paid by the April 15th deadline, payment penalty accrues at the rate of one-half of 1% per month for a total of 20% in addition to the tax due.

The rate change is made under Internal Revenue Code section 6621(b) which was amended by the Economic Recovery Tax Act of 1981. The act provides that the rate is 20% from October 15 and is based on 100 percent of the average prime interest rate for the preceding month. Previously the rate was set every two years and was based on 90 percent of the prime rate.

Total 116 Million, Beef Cows Post 2% Advance, Milk Cows 1% Higher, 1981 Calf Crop 44.7 Million Off 1%

Washington, Jan. 20 (USDA) - All cattle and calves in the United States as of Jan. 1, 1982 totaled 116 million head. A 1% increase from the 114 million a year ago and 4% above two years ago, according to the Crop Reporting Board. The upward trend of the cattle cycle continued for the third year but at a slower pace.

All cows and heifers that have calved, 60.4 million, were up 2% from 49.6 million a year ago.

Cows, at 30.1 million, were up 1% from January 1, 1981. Milk cows, at 11.9 million, were up 1% from the 10.8 million a year ago and 2% from the 10.8 million January 1, 1981.

Value per head for all cattle and calves is \$415, down \$20 from January 1, 1981 and \$67 per head lower than 2 years ago.

Other class estimates on January 1, 1982 and the changes from last year and two years ago, respectively, as follows:

Sheep, Goat Inventory Shows Another Gain
Washington, Jan. 26 (USDA) - All sheep and lamb inventory in the United States on January 1, 1982 totaled 13.1 million head, according to the Crop Reporting Board, up 1% from the 12.9 million head a year earlier. The value of all sheep and lambs on hand January 1, 1982, totaled \$747 million, down 17% from a year ago. The average value per head was \$56.00, down \$12.80 from last year.

Stock sheep inventory was 11.6 million head, 2% above January 1, 1981. Ewes one year old and older, at 8.91 million head, were up 2%. Ewe lambs also increased 2% to 1.82 million. Wether and ram lambs were 20% higher than last year.

Sheep and lambs on feed January 1, 1982, for slaughter market in the 24 major feeding states were down 5% from a year ago and numbered 1.58 million head.

The 1981 lamb crop of 8.85 million head increased 7% from the 1980 crop. Breeding ewes one year old and older on January 1, 1981, were up 8% from a year earlier. The 1981 lambing rate was 101 lambs per 100 ewes one year old and older, compared with 97 in 1980 and 95 in 1979.

Goat numbers in Texas totaled 1.45 million head on January 1, 1982, up 6% from last year. Total value of \$99.5 million was up 12%. The average value per head increased \$2.50 to \$41.00.

Acresage Reduction Plan By Secretary Block
Last Friday Agriculture Secretary John R. Block announced a plan for an acresage reduction of 10% on feed grains and 15% on wheat, rice and upland cotton. The voluntary program involves the 1982 crops of these commodities.

Block also said 1982 feed grains may be entered immediately into the farmer-owned reserve.

Participants in the feed grain program will be required to divert the reduced acresage to conservation uses, he said. Block said a number of market factors, including the record 1981 U.S. corn harvest of 8.2 billion bushels and instability in the export market, make the reduced acresage program advisable.

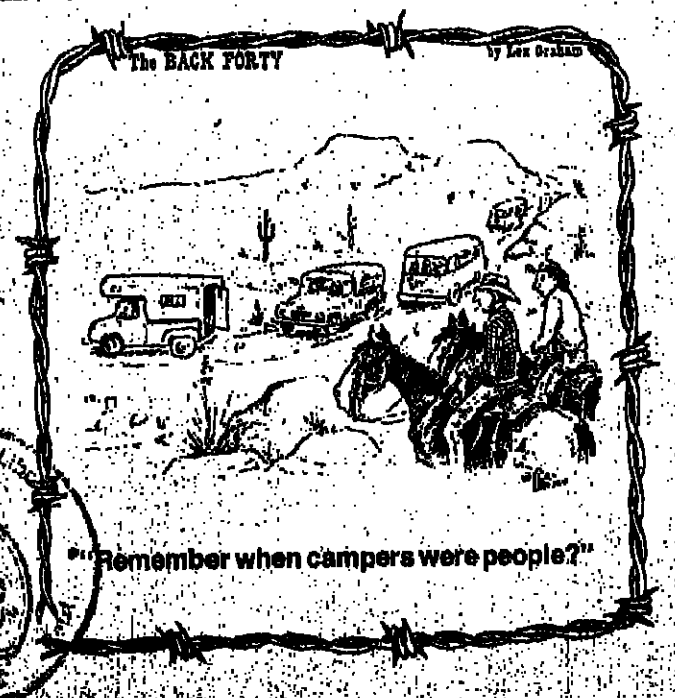

Only the participants in the program will be eligible for program benefits such as target price protection and Commodity Credit Corp. commodity loans.

Stuph & Thangs (CONT. FROM PAGE 1)

task the other day. The difference between what the welfare entitlements amount to between places like California and New York and most of the rest of the country is almost unbelievable. The other day it was reported that a feller in New York who

was on welfare with a wife and four young ones was getting nearly \$14,000 per year in various programs ranging from food stamps, rent subsidies, supplemental income, etc., and since he was an unskilled type who would probably command a minimum wage or little better if he reentered the labor force, there was no chance of his outgrowing his fixed income by looking for a job.

If you want to think up a super-

deeper burr tale just think about what the situation would be like if the states had to take over these various programs with money they raised from food stamps, rent subsidies, supplemental income, etc., and since he was an unskilled type who would probably command a minimum wage or little better if he reentered the labor force, there was no chance of his outgrowing his fixed income by looking for a job.

Reagan just imagines he uncorked a can of worms when he hinted at trimmin' Social Security, this thang

would be a black huster to end all black busters in the War Between the States! Ever thine.

The Editor.

P.S.: Uncle Dunk claims that of all the mistakes the Congress has made in its infinite wisdom the one where the legislators said the Internal Revenue Service had to set its interest rates at the prime rate in October each year was the worst pan out yet. Now the IRS is gonna charge you 20% interest on late payments, etc., based on the prime rate when it was at almost its all time high last October. Today the prime is 15 3/4% Ouch! On top of that these automatic raises of the Burruccrats keep pushing charges for their service higher and higher. Now comes the Food Safety & Inspection Service with a hike in which the new hourly rate will be \$14.04 per hour, up from \$13.46, over time goes to \$18.12 from \$16.76. Lab services from \$38.24 to \$27.24. All of which will be added to the food bill you all - Thassall, Brothers!

The first Airmail stamp cost 24 cents.

Correction

Stephenville — A story stating that the Collier Diamond C Ranch at Stephenville would disperse its mature cows in a sale Friday and Saturday, May 14 and 15 was incorrect. The Weekly Livestock Reporter regret this error.

John B. Collier IV, general manager, said the ranch does plan a sale, but details and time of the sale have not been worked out, yet, and will be announced later.

Farmers Should Hang Tough Says Federal Land Bank Officer

Manhattan, Kan. — Farmers should hang tough, through the hard times because farm real estate will continue to provide a dependable return as an investment.

That was the opinion of Monte Reese of the Federal Land Bank in Wichita, as expressed to nearly 800 attending the fifth annual Kansas Young Farmers and Wives Day Jan. 9 at Kansas State University, Manhattan, Kan.

Reese, assistant vice president of public relations for the bank, in a presentation titled "Renting vs. Buying," said that improved farm commodity prices are needed to save heavily indebted farmers.

He presented an historical outline which showed Kansas farm land a wise investment, not only monetarily, but as the best place in the world to raise a family.

"Providing a child with a Kansas rural background is one of the finest investments for the future you could make," he said.

Because farm commodity prices have remained low in the past few years while operating expenses have increased, farmers have had to borrow on land equity. Their ability to borrow against the land has been reduced because the rise in land value hasn't kept pace with inflation, and so more acres in corn where many may not get out, Reese said.

"Three things are required to survive these times," Reese said. "First you must make right decisions a lot more times than wrong ones. Failing that, you need a steady cash flow and a large reserve to withstand adverse conditions," he said.

Some Federal Tax Refunds Still Undelivered Says IRS

Undelivered Federal tax refund checks for some taxpayers are waiting to be claimed, the Internal Revenue Service advises. Many of these checks remain undelivered because taxpayers move and do not leave adequate forwarding addresses with the U.S. Postal Service.

Taxpayers who filed on time and still have not received their tax refunds

should check with the IRS as soon as possible, because refund delays can also be caused by lost or stolen checks. Other refund delays can be caused by errors or omissions on the tax return, such as illegible names or addresses. When inquiring about a delayed refund, the IRS suggests that taxpayers provide the names and addresses as they appear on the return, the social security numbers, the type of forms filed, correct names and addresses if different from those shown on the return.

Generally, an undelivered refund check can be reissued within four to six weeks.

1982 Meat Imports Estimated Below Quota

Secretary of Agriculture John Block has announced U.S. meat imports for 1982 are estimated below the level that would require restraints on imports under the Meat Import Act of 1979. Based on estimates of available supplies, imports of beef and certain other meats should total not more than

1,210 million pounds — 40 million pounds below the 1982 trigger point of 1,500 million pounds. The Meat Import Act requires the president to restrict imports of certain meats — primarily beef and veal — if USDA estimates imports of those meats will equal or exceed 110% of the trigger point.

Welder, 6F Ranches Announce Bull Sale

Two highly respected Texas Beefmaster breeders, 6F Ranch and John Welder Ranch, have joined together for a major bull sale on Saturday, February 6, 1982. The sale will begin at 1:00 p.m. at the Live Oak County Beefmaster sale barn between Three Rivers and George West. About 100 breeding age bulls will sell. All bulls will be selected from the herds of John Welder and Company, Victoria, Texas, and 6F Ranch, Kyle, Texas, and carry only the brands of those two ranches.

Both commercial bulls and herd sires prospects will sell. About 20% of the BBU classified offering will carry the "U" brand. While most of the bulls will be two year olds, there will be some three and four year old bulls. The bulls are all ranch raised and pasture conditioned.

The bulls come from herds which have long emphasized performance and durability in their cattle. 6F has become widely respected as one of the premier producers of females in the Beefmaster breed and has consistently produced Futurity winners. Its "Old Man" bloodline is producing top performing heifers and bulls. Welder Ranch first used Beefmaster bulls in its commercial herd, then expanded into a purebred program. It also has a large number of cattle enrolled in BBU's Upgrading Program. "Cinco" and "Jo Jo" rank among Welder's top herd sires.

Beware The Pig

Cattlemen like to take potshots at each other. "My breed is best." "They're better in the West." "It's the packer's fault."

Better, we beware the Pig!
He has become a tough — and deserving — competitor.

He has made spectacular improvements in the lean-to-fat ratio of his carcass.

The Pig is holding his own in the supermarket while beef consumption steadily declines.

He's doing it through education and promotion by offering the consumer a product consistently

leaner and cheaper than beef.

In America, this is called Competition.

So give the Pig his due. And before we ignore him, let's find out what he's doing right. It might help make the beef industry more competitive.

We think Beefmasters can help make your cattle more competitive.

Call or write for more information.

JOHN TUCKER.

Tucker Records Second Million Dollar Sale

George West, Tx. — Few cattle raisers of any breed ever have a million dollar sale. But on January 7 John Tucker became the only Beefmaster

breeder ever to have two "million" sales — back to back — and in less than 14 months.

It was all made possible by 78 buyers from eight states and Mexico who paid \$1,072,350 of 342 lots of high quality cattle to average \$3,135 at the John Tucker Beefmaster Dispersal Sale, held at the ranch on January 6 and 7.

The sale was managed by Reyes & Mihalaki. Auctioneers included Ruben Reyes, Anthony Mihalaki, Bert Reyes and Ellis Menchaca, Jr. all of San Antonio.

A breed record was set for the highest priced recipient cow carrying an embryo when Russell Burleigh, 77 Ranch of Hebbronville, purchased Lot A for \$26,000. This recipient cow is carrying an embryo implanted from the Kingsberry 121 cow and Tucker's Rojo. One-half interest in the Kingsberry 121 and her Rojo bull calf previously sold for \$880,000. Tucker dispersed his cattle so he could concentrate on building an embryo transplant herd. The high selling lot of the sale was

Lot 23, a three-in-one package, that sold to R & H Cattle Co. of Pettus for \$30,000. Hank Olson of Corpus Christi purchased the second high selling three-in-one package for \$10,000. The third high selling three-in-one package went to Bella Vista Beefmasters of Mesquite, Coahuila, Mexico, for \$6,500. Three-in-one packages grossed \$498,500 on 43 lots to average \$3,486. Henry Clay, HP Ranch of Orange Grove, paid \$6,250 for the high selling pair. Nolan Ryan of Alvin purchased the second high selling pair for \$6,000. The third high pair went to Earnest Moore of Kaufman for \$5,100. Pairs grossed \$207,200 on 72 lots to average \$2,878. Lots 168 and 210 tied for the high selling bred female. They sold for \$3,500 each to Russell Burleigh, 77 Ranch, and Dewey Arnold, Tierra Seca Beefmasters of Freer, respectively. Armando Salazar of Kingsville purchased the second high bred female for \$3,300. The third high seller went to Russell Burleigh, 77 Ranch, for \$3,000. Bred heifers sold for \$45,800 on 23 lots to average \$1,983.

The two high selling open heifers sold for \$3,800 each to Russell Burleigh, 77 Ranch, and Cecil Hogue on a \$3,700 bid. Open heifers grossed \$118,200 on 56 lots to average \$2,111. A Spot Jr. son was the high selling bull going to Bella Vista Beefmasters for \$10,000. The second high selling bull was purchased for \$9,000 by Russell Burleigh. Burleigh also bought the third high selling bull for \$7,500. The highest averaging portion of the sale were the 48 bulls — grossing \$176,850 to average \$3,684. The top volume buyer was Bella Vista Beefmasters, purchasing 20 lots for \$111,100. Other volume buyers were Russell Burleigh, 77 Ranch; Seymour Wormer of Corpus Christi; Dewey Arnold, Tierra Seca Beefmasters; Whiskey River Beefmasters of Pittsburg, Kan.; W. L. Adams of Houston; Avelardo Borunda of Chihuahua, Chihuahua, Mexico; Great Western Ranch of Madisonville; R & H Cattle Co.; and Nolan Ryan. One species of orchid provides us with vanilla.

Beefmaster Embryos Sell To Honduras; Field Day Set

Beefmaster embryos have been sold to Honduras, and a field day demonstrating embryo transfer to cattle is set for all over Central America has been scheduled in conjunction with the transfer of embryos. Mrs. Adolfo Midence and his son, Adolfo Midence, Jr., purchased 28 Beefmaster embryos from Leo Jaski's L.J. Bar Ranch, Pleasanton, Tex. The embryos will be transferred into recipient cows on the Midence Ranch near Trujillo.

Fresh embryos will be collected from five top donor cows bred to Crimson Warrior, Cold Cash, and L.J. Bar III. Collection and transfers will be made April 18, 1982 by Dr. W. H. Crockett, Elgin Breeding Service, Elgin, Tex. In addition, the Midence and L.J. Ranch has entered into a partnership with frozen embryo transplants using recipient cows in Honduras, resulting from the partnership transfers will be sold to commercial producers in Central and South America; heifers have been contracted by Midence to further establish a pure bred herd. The transactions climaxed a five-day tour of Beefmaster ranches and embryo transfer facilities in Texas.

AVOID CHANGING WELL LEATHERS FOR MANY YEARS
Perma-cups are modern without more wear resistant than any other. Perma-cups will outlast leather 1 to 1. Their tapered design allows oil 1/8" wearing, instead of 5/8" of a leather. Much less friction for easy pumping extends cylinder life greatly. Perma-cups must be used in a good or new cylinder, as they do not seal. Install Perma-cups, usethane Check-balls, and Urethane Pump Rod-guides, and don't put that well for many years. Thousands are in wells that have not been re-thrilled in 8 years! All are available in standard cylinder and pipe sizes. Write or call for our catalog. We ship same day order is received. This is our 25th year serving ranchers.
